

Independent research on Vitamin D status

For your clinical team's own review. The references below are independent, peer reviewed publications. Enyrgy is a wellness device, makes no medical claims, and does not interpret these findings. Vitamin D status is the subject of this literature; Enyrgy is simply a tool to measurably raise and document it. The list is presented as published, including honest, mixed findings, so your clinicians can weigh the evidence on their own terms.

VITAMIN D AND IMMUNE FUNCTION

Aranow C. Vitamin D and the Immune System. Journal of Investigative Medicine. 2011;59(6):881 to 886.

Widely cited review of Vitamin D's role in innate and adaptive immunity.

pubmed.ncbi.nlm.nih.gov/21527855

Charoenngam N, Holick MF. Immunologic Effects of Vitamin D on Human Health and Disease. Nutrients. 2020;12(7):2097.

Comprehensive review of Vitamin D's immunologic mechanisms across health and disease states.

doi.org/10.3390/nu12072097

Martineau AR, et al. Vitamin D supplementation to prevent acute respiratory tract infections: systematic review and meta-analysis of individual participant data. BMJ. 2017;356:i6583.

Individual participant data meta-analysis; the protective association was strongest in those who were most deficient at baseline.

doi.org/10.1136/bmj.i6583

INDIVIDUAL RESPONSE TO VITAMIN D, WHY MEASUREMENT MATTERS

Carlberg C. Intervention Approaches in Studying the Response to Vitamin D3 Supplementation. Nutrients. 2023;15(15):3382.

Documents that a meaningful share of individuals are low responders to Vitamin D supplementation, which supports measured, individualized approaches over a fixed capsule dose.

doi.org/10.3390/nu15153382

VITAMIN D AND CANCER, EPIDEMIOLOGY AND RANDOMIZED TRIALS

Keum N, et al. Vitamin D supplementation and total cancer incidence and mortality: a meta-analysis of randomized controlled trials. Annals of Oncology. 2019;30(5):733 to 743.

Meta-analysis of randomized trials suggesting a reduction in total cancer mortality, though not in incidence.
